FORMS CLASSIC 50 PCS

Lower forms are essential tools used to create extended nail lengths by applying them under the natural nail. These forms act as a foundation, allowing nail technicians to sculpt nail extensions with builder materials such as acrylic, gel, or poly gel. Once the lower form is positioned beneath the nail, the desired builder product is applied on top of it, shaping the extension to the preferred length and style. After the product cures, the form is easily removed, leaving behind a perfectly extended and sculpted nail.

NON ACETONE (POLISH REMOVER)

Non-acetone polish remover is a gentle solution, perfect for safely removing normal air- dry polish from nail extensions. Unlike acetone or thinners, non-acetone is much kinder to the skin, preventing the dryness and white residue that stronger removers can leave behind. It does not dry out or damage the extensions. Acetone-based removers can break down the material of the extensions, leading to premature wear or removal.

PRIMER

Ranara Primer is an acid-based primer designed to enhance the adhesion of nail products by deeply penetrating the layers of the nail. It is crucial to use only a small amount of this primer to achieve optimal results. The primary function of Ranara Primer is to effectively remove excess oil and moisture from within the nail layers, creating a clean and dry surface for application. By eliminating any underlying moisture, this primer ensures that products such as acrylics, gels, or polishes adhere firmly to the nail, preventing lifting or separation. Its potent formula allows for a strong bond, resulting in longer-lasting nail enhancements.

BASE COAT (AIR DRY)

This air-dry base coat is specially formulated for application on extensions, providing a protective layer before any polish application. When you're not using permanent polish or top coats on your extensions, this base coat acts as a temporary shield, helping to protect the acrylic or gel surface from damage or discoloration from pigmented nail polish colours (airdry polish). Easy to apply and remove, it forms a smooth film over the acrylic, offering a great foundation for additional nail art or polish without long-term commitment. However, it's important to note that this base coat should only be used on extensions and not on natural nails, as its film-like coating won't adhere well or stay on natural nails.

Unlike regular tweezers, its unique mechanism holds lashes securely without constant grip pressure, allowing you to focus on your other hand for precise application. Perfect for professionals seeking efficiency and control.

Made in Korea

TWEEZERS - CURVED

Curved Tweezer is expertly designed for isolating lashes with ease and precision. Its slightly curved tip eliminates the need to angle your hand, naturally aligning downward to hold lashes securely. This ergonomic design simplifies separating two lashes from one, ensuring smooth and efficient lash application.

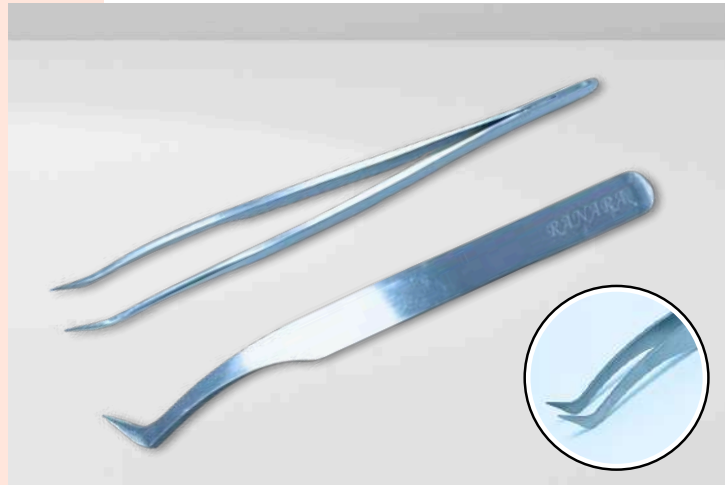

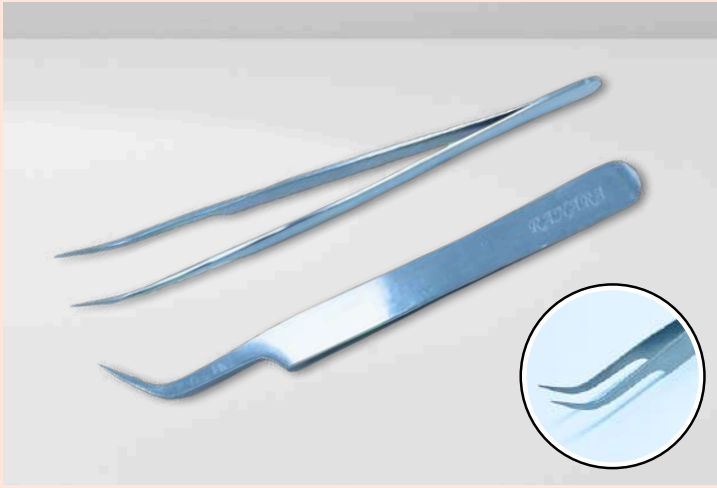

Made in Korea

TWEEZERS - HOOKED

Hooked Tweezer is a versatile, dual-purpose tool ideal for isolating lashes and applying both classic and volume extensions. Its curved tip offers excellent precision, making it easy to pick up lashes and adjust angles as needed for seamless application.

Made in Korea

TWEEZERS - VOLUME L- TYPE

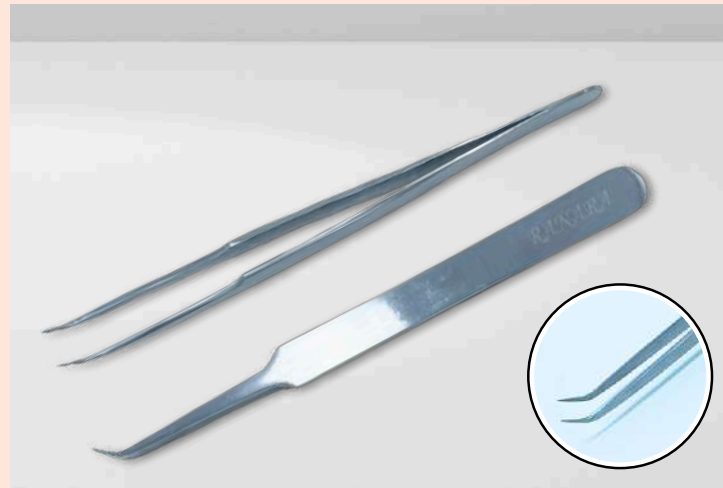

L Tweezer is a specialized volume tweezer featuring an L-shaped angle, ideal for crafting stunning lash fans. Designed to securely hold multiple lashes at once, it simplifies picking up volume lashes and creating perfectly uniform, beautiful bunches for flawless applications.

Made in Korea

TWEEZERS - VOLUME L-15 degree

L Tweezer features a unique 15-degree angle, minimizing hand adjustments during use for enhanced comfort and precision. Its finer tip, compared to regular L-tweezers, is perfect for professionals who need precision while effortlessly creating lash fans or bunches with multiple lashes.

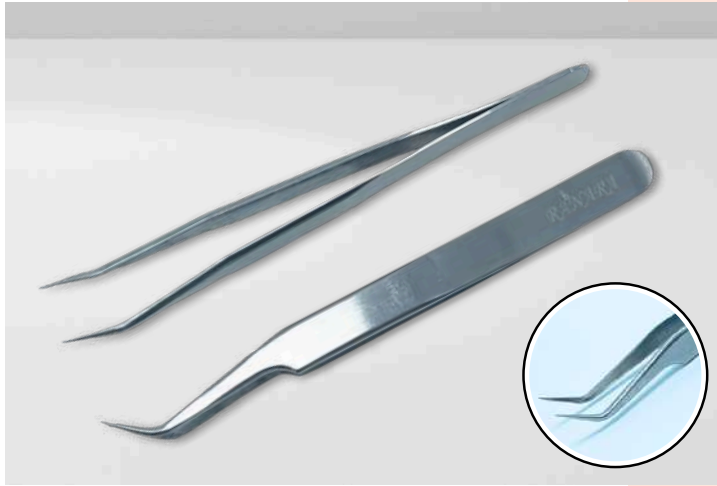

Made in Korea

TWEEZERS - STRAIGHT

Straight Tweezer is a perfectly straight tool designed for isolating and separating lashes with precision. Its straight tip makes it ideal for both beginners and professionals, ensuring ease of use and accuracy in lash applications.

Made in Korea

TWEEZERS - VOLUME L-45 degree

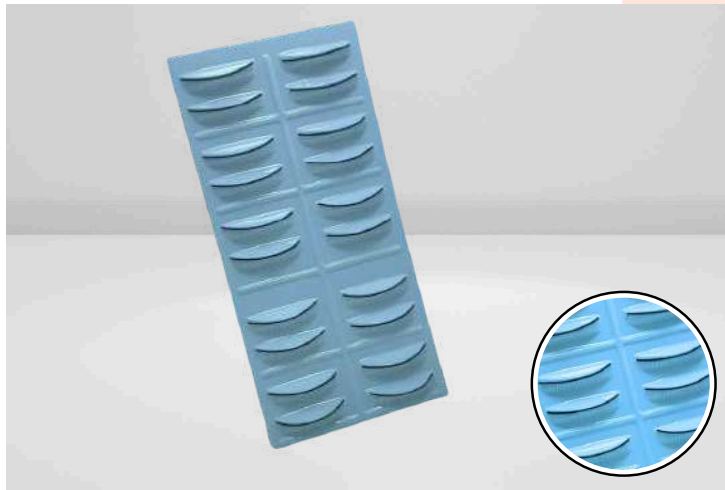

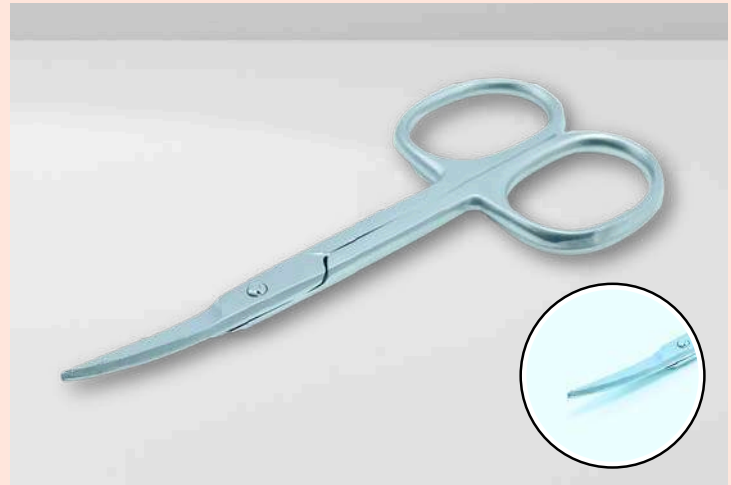

L45° Tweezer is specifically designed for volume lash extensions, featuring a deeper curve for effortless precision. Its design allows you to pick up multiple lashes easily without reaching too deep into the cassette. Ideal for those who prefer working with a larger curve for creating flawless lash fans.

Made in Korea

SCISSOR—STAINLESS, DURABLE

PROTEIN REMOVER PADS

PRIMER BASED 100 PADS (SEALED CONTAINER)

Protein Remover Pads are oil-free pads designed to clean grease, dust, and moisture from your lashes. Infused with a built-in primer, these pads eliminate the need for a separate primer or bonder, making the prep process quicker and more convenient for lash applications.

Made in Korea

FOAM CLEANSER

FOAM BASED CLEANSER PUMP BOTTLE

Foaming Cleanser is an oil-free, foam-based cleanser designed to effectively remove makeup, mascara, and any debris from lashes. Simply pump it onto the lashes to cleanse and dehydrate, ensuring all oil and moisture are removed, leaving lashes perfectly prepared for extensions.

Made in Korea

FOAM CLEANSER BRUSH

SOFT BRISTLES 1PCS

Foaming Cleanser Brush is a gentle yet effective tool designed to clean eyelashes thoroughly. Its soft bristles effortlessly remove debris, mascara, or makeup residue from between the lashes without irritating the skin, ensuring a comfortable and precise cleansing experience.

Made in Korea

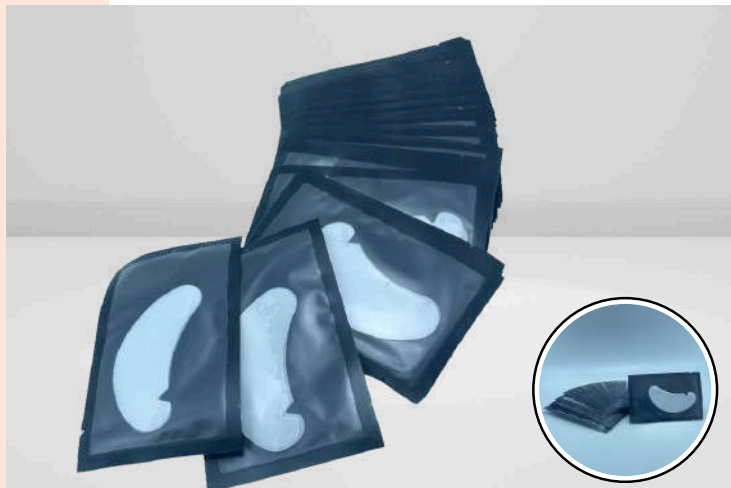

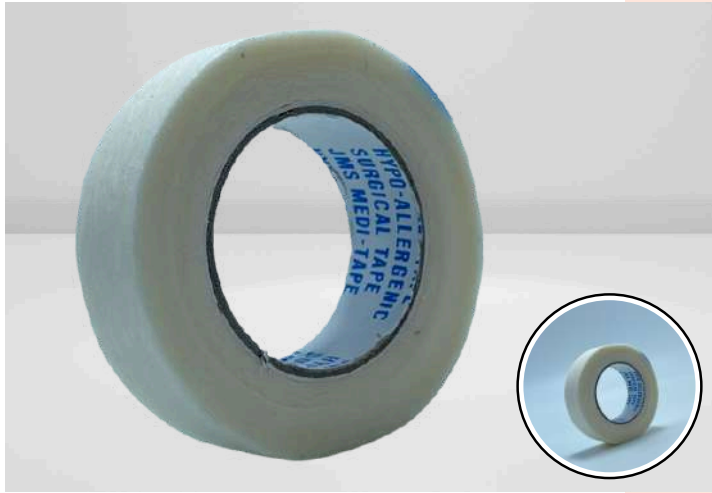

UNDER EYE PADS

PADS FOR LOWER LASHLINE (50PCS SET)

Under-Eye Pads are essential for securing the lower lash line during eyelash extensions. These well-adhesive pads ensure precise isolation and prevent upper lashes from sticking to the lower lashes during the procedure, avoiding any discomfort when opening the eyes. Available in a set of 50 pairs, they are a must-have for professional lash applications.

Made in Korea

ADHESIVE TAPE

ROLL-MEDICAL GRADE - IPC

Adhesive Tape is a versatile alternative to under-eye pads or foam tapes, ideal for securing the lower lash line or assisting with tricky applications. It's especially useful for fixing corners, tucking in eyelids, or lifting sagging skin for easier access during lash extensions. Perfect for clients with droopy eyes or uneven skin, it simplifies the process and enhances precision.

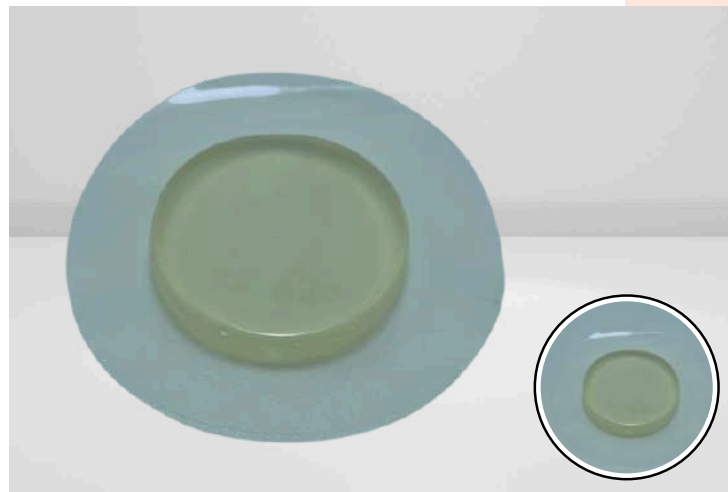

Made in Korea

LASH MAGIC STAND

EASY TO PICK FALLEN LASHES, REUSABLE -IPC

LashMagic Stand is an essential tool for beginners and those practicing lash extensions. It allows you to salvage dropped lashes by simply placing them on the stand and pressing gently to make them stand upright, ready to be picked up at the perfect angle. Without this tool, dropped lashes often go to waste, making the LashMagic Stand a must-have for reducing waste and improving efficiency.

Made in Korea

SILICON VOLUME FAN PAD

EASY TO MAKE FANS, REUSABLE - IPC

A Silicone Volume Fan Pad is an innovative tool designed for those learning to create lash fans or bunches. Simply place a few lashes on the pad's edge, and its unique texture naturally shapes them into a beautiful, uniform fan, making the process effortless and beginner-friendly.

Made in Korea

EYELASH FAN

CORDLESS RECHARGEABLE FAN - IPC

An Eyelash Fan is an essential tool for speeding up the drying process during eyelash extensions. If your lash glue isn't setting quickly enough, simply use the fan to blow over the lashes, ensuring the glue dries completely for a tight, secure, and flawless finish. Perfect for efficient applications!

Made in Korea

AIR BLOWER

RUBBER, HANDY TYPE - 1PC

Air Blower is a manual and effective alternative to the Eyelash Fan. Perfect for those who prefer a non-electric option, it helps dry lash glue and extensions quickly by gently blowing air, ensuring a secure and efficient application process.

Made in Korea

LASH HOLDER

CRYSTAL SLAB, RECTANGULAR

Crystal Slab is a versatile tool for organizing and simplifying lash applications. It holds multiple lash sizes in one place, eliminating the need to repeatedly search the cassette during a session. Additionally, you can place eyelash glue directly on the slab, making it a convenient and efficient workspace for professionals.

Made in Korea

LASH HOLDER JADE STONE

JADE STONE, ROUND

Jade Stone is a great alternative to the Crystal Slab for those concerned about lash glue drying too quickly or maintaining its temperature. The jade surface stays cool, helping to prevent the glue from drying too fast, ensuring a smoother and more controlled application process.

Made in Korea

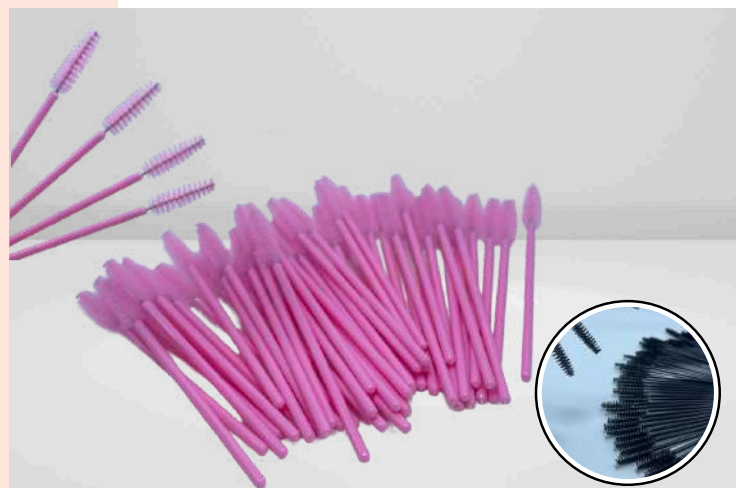

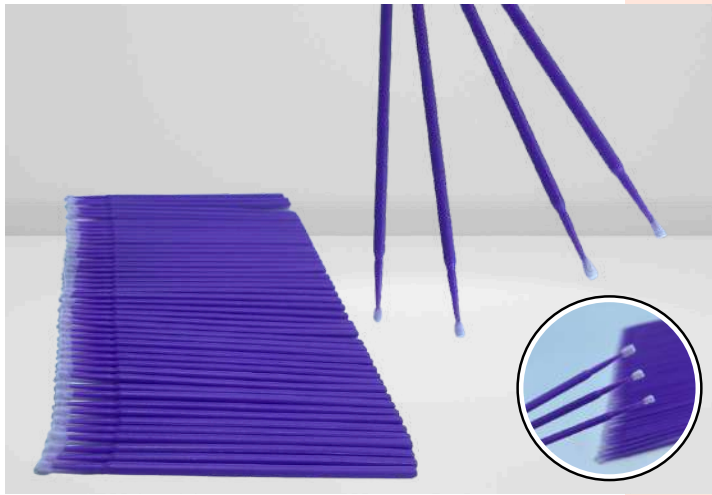

BRUSH WANDS

MASCARA BRUSH WANDS/SPOOLIE (50PCS SET)

Mascara Brush Wands are essential tools for keeping lashes neat, tidy, and free of tangles. Whether you're combing through lashes during the application process or providing them to clients for aftercare, these wands ensure a smooth, professional finish and help maintain lash shape and separation.

Made in Korea

REMOVER STICKS

MICRO-BRUSH (50PCS SET)

Made in Korea

GLUE RINGS

DISPOSABLE RINGS (10PCS SET)

Glue Rings are disposable rings designed for holding eyelash glue during the extension process. Positioned on the fingers near the eyes, they provide quick access to the glue, allowing for efficient work, especially with fast-setting adhesives, and enhancing convenience throughout the application.

Made in Korea

GLUE DROPS TRAY

DISPOSABLE TRAYS (10PCS SET)

For those who prefer not to use glue rings, Glue Drop Trays offer an excellent alternative. Featuring multiple sections for placing drops of glue, they provide a clean and organized workspace. Once all sections are used, simply dispose off the tray and replace it with a new one, ensuring a hygienic and efficient application process.

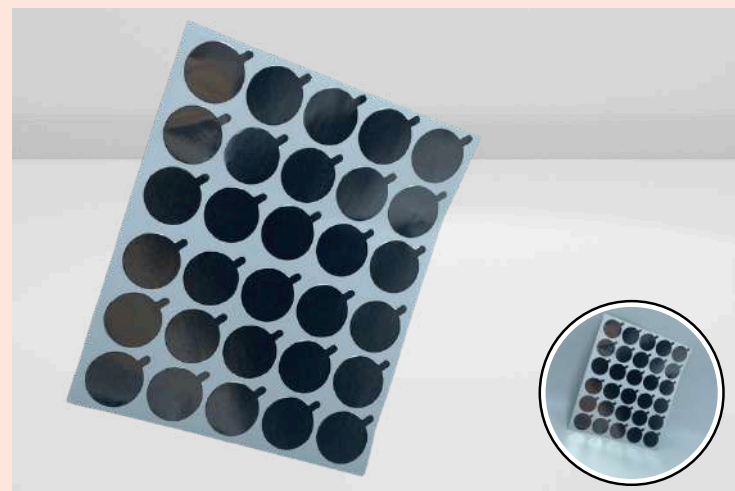

Made in Korea

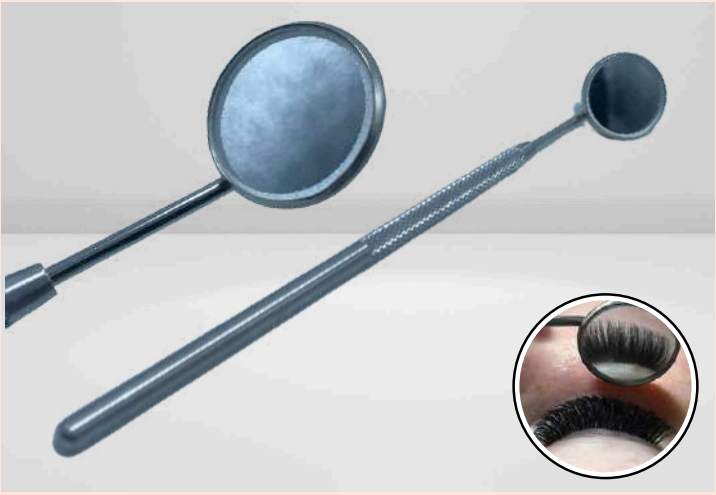

GLUE PATCHES

1 SHEET (30PCS SET)

Glue Patches are an excellent solution for protecting surfaces like crystal slabs from glue spills. Simply place the patch down, pour the glue on top, and when you're done, just remove and dispose of it. This keeps your workspace clean and prevents glue from spoiling your tools.

Made in Korea

EYELASH MIRROR

ROUND - 1PC

Eyelash Mirror is an essential tool for lash extension applications, allowing you to view the lashes from underneath, something that's impossible with the naked eye. This mirror helps you check the lower lash surface to ensure that glue and lashes are applied cleanly, giving you a complete view of the finished work for precision and perfection.

Made in Korea

PROTECTIVE COATING SEALANT

CLEAR COAT - 10ML

Protective Coating Sealant is a valuable aftercare product for eyelash extensions. Once applied, it forms a protective layer over the glue and lashes, preventing potential damage from moisture, water, dust, or pollution during the first 24 hours. This sealant helps maintain the integrity of the glue, ensuring a longer-lasting and secure lash application.

Made in Korea

SPECIAL MASCARA GOLD

WATERBASED - 8ML

Once your eyelash extensions are done, there's no need for mascara. However, if you prefer a fuller, more dramatic look after a couple of weeks, you can use Special Mascara Gold. This oil-free mascara is designed not to interfere with the glue, making it safe to enhance the volume and appearance of your lashes without compromising the extensions.

Made in Korea

VERY BERRY EYELINER

SKETCH LINER - 1ML

After getting eyelash extensions, it's recommended to avoid using regular makeup products. However, if you wish to apply makeup, always opt for products specifically designed for lash extensions. One such product is the Very Berry Eyeliner, which is both moisture-free and oil-free, ensuring it won't harm or interfere with your extensions while still giving you a defined, beautiful look.

Made in Korea

TONIC ESSENCE GOLD

NOURISH and MOISTURISE - 10ML

Once your eyelash extensions are done, there's no need for mascara. However, if you prefer a fuller, more dramatic look after a couple of weeks, you can use Special Mascara Gold. This oil-free mascara is designed not to interfere with the glue, making it safe to enhance the volume and appearance of your lashes without compromising the extensions.
